

eta/STAFFING

Specialized Staffing Services

For over 25 years, ETA has consistently supplied its clients with the Engineering and IT professionals necessary to meet their staffing needs. It has provided staffing to the major automotive manufacturers as a Tier 1 supplier and has been recognized as the 'Supplier of the Year'.

A leader in the field, ETA provides exceptional candidates and teams to fulfill the client's needs on time and within budget. The team is always searching for and working with the best of the best. Many candidates are trained internally by the engineering services team for additional practical experience to maximize potential in the field.

A strong commitment to long-term partnerships, as well as in-depth knowledge of industry practices, give ETA the ability to proactively and comprehensively understand the client's overall staffing needs and provide cost effective solutions. Its client list includes General Motors, Ford, Chrysler, Mitsubishi Fuso Truck & Bus Corporation, Thomas Built Buses, ICRC and TACOM.

Unique CAE expertise in the following industries:

- Automotive Manufacturing
- Aerospace Product Development
- Heavy Truck/Equipment Manufacturing
- Bus Manufacturing
- Military Equipment Development
- Appliance Manufacturing
- Civil Engineering

Areas of staffing specialties include:

- CAE Engineers - Crash, NVH, Durability
