A Message from ETA's CEO & President, Akbar Farahani -

I hope all of our ETA team members and your families are staying healthy as we navigate through this challenging time together. You have all done a great job of keeping our business running while working from home. And I understand this has not been an easy transition but your efforts have not gone unnoticed. Let's continue to communicate with our customers and clients, addressing any questions or concerns they may have regarding our products and services.

ETA Business Update

- The engineering services team is currently working on the implementation of ACP OpDesign and CADLM's software product line – ODYSSEE/Lunar with our U.S. OEM's.
- Dynaform 6.0 was successfully released.
- Dynaform 6.1 will be released soon and include; Trim Line Development, Springback Compensation and Batch BSE.
- PreSys 2020 will be released before the end of April.
- VPG 2020 will be released during the middle of May.
- We successfully released our ACP Process video series – Why the ACP Process?, What is the ACP Process? and ACP Process Benefits. Click [here](#) to watch.
- ETA's China offices are back up and running in Shanghai and Nanjing. All of our employees managed to stay healthy during the COVID-19 outbreak.
- The New ETA website will launch at the beginning of May

Human Resources

Stay Connected, Stay Informed

It is more important than ever that we stay connected, as well as informed, during the coming weeks. We also recognize how easily it is to get overwhelmed with the amount of information circulating about COVID-19 in the headlines. Knowing where to turn to get answers you can trust is paramount. ETA is committed to providing you with accurate information based on facts from our trusted partners and we will continue to provide you with useful information and resources to help you navigate the days ahead.

As always, we recommend employees refer to the CDC website for the most current, up-to-date information on COVID-19. Click [here](#) for more information.

We also recommend the following website, the National Alliance on Mental Illness for those individuals who may be experiencing depression and/or anxiety during this time, or know of a family member or loved one who is experiencing depression and/or anxiety. Click [here](#) to visit the website.

Spring Fling

With the warmer weather approaching and the days getting longer, it's a great time to get outdoors and enjoy the fresh air, even if you can't do it at a beach this year. Go for a walk, ride a bike, create some sidewalk art with your kids and a bucket of chalk! Send us your pictures of how you are taking advantage of the change in seasons, for us to post in next month's newsletter.

Stay Safe & Stay Healthy!
