1. DEFINITIONS

Unless otherwise specified or required by context, the terms listed below shall have the following meanings in this EULA:

1.1 ETA means Engineering Technology Associates Inc.

1.2 "Products" refer to all ETA computer software applications, hardware, firmware, material libraries, and other related technologies that are included with or provided under this EULA. This also encompasses any associated media, printed materials, and electronic documentation. Additionally, "Products" include any software updates, version upgrades, configuration enhancements, add-on components, or supplemental features that ETA may offer as part of its subscription services or as optional extensions, should you choose to purchase such services or additional functionalities under the terms of this EULA.

1.3 ETA Technology shall mean software (whether in source, object, or executable code, as applicable) and documentation, including applications, programs, databases, operating systems, procedures, specifications, and other logic that directs the functions or manipulates information for those products licensed by ETA.

1.4 Module means a functionally separable component of the Software.

1.5 Perpetual License means a license that has a License Term commencing on the fulfillment date and continuing in perpetuity (i.e. permanent) unless earlier terminated in accordance with the terms of this Agreement.

1.6 A Subscription or Lease License refers to a license that is purchased for a specified duration. All such licenses are non-refundable. You may renew a Subscription or Lease License for additional periods as permitted.

1.7 Seat means, for each Module of each item of Software, a workstation, whether a dumb terminal or containing a single CPU, that has or can have simultaneous access to the client or terminal Module of such Software.

1.8 Server means a single CPU that can access through its registers addressable memory (such as RAM, main memory, extended memory, expanded memory, or virtual memory) that has or is capable of copying the server Module of Software into such memory.

1.9 Designated Network means the network identified in the License Key.

1.10 An Academic License is a license granted to an educational institution, permitting part-time or full-time instructors (including faculty and academic staff) to use the Product solely for software administration, teaching, and non-commercial academic research as part of regular instruction. Any commercial or for-profit use of the Product, as well as any use in support of government agencies or non-educational nonprofit organizations, is strictly prohibited, even if part of the use is non-commercial.

1.11 Maintenance Service refers to ETA's paid maintenance program available to licensees who have purchased perpetual licenses. This service provides access to upgrades, updates, bug fixes, machine changes and other support for your Licensed Materials within the maintenance term. Maintenance Services do not include special training or classes to be provided by ETA.

1.12 An Evaluation License refers to a temporary, time-limited license granted for ETA software product, allowing a prospective user to assess the Product before purchasing a commercial

license. By using an Evaluation License, you acknowledge and consent to ETA collecting data related to your usage of the Product, including your location, frequency and duration of access, and the specific features and functions you interact with.

1.13 Timezone refers to the specific geographic region or permitted country in which the Licensed Product may be used, as determined by the end user's designated shipping address. The license is restricted to this timezone unless additional timezones are purchased. You may extend the license usage to additional timezones by paying an additional cost as applicable.

1.14 You acknowledge and agree that the Licensed Materials, along with any other information provided to you by ETA or its resellers and distributors under this EULA, must be kept confidential and may not be disclosed except as permitted by this agreement. You recognize that the Licensed Materials contain trade secrets and proprietary information belonging to ETA and/or third parties. You agree to grant access to the Licensed Materials only to your employees or consultants/independent contractors who are not affiliated with any direct competitor of ETA and who have signed a confidentiality agreement with you that adequately protects ETA's intellectual property rights.

You agree that it shall not transmit the Software to any other country without ETA's prior written consent, which consent the ETA may grant or withhold at its sole discretion. You shall not transmit to any other country any analysis results produced using the Software unless the transmittal of such results would be permissible under the laws and export regulations of the United States of America. You acknowledge that the export, transmission, or other transfer of the Software or any results produced using the Software is governed by the laws and regulations of the State of Michigan, United States of America. Your obligations in this respect shall survive any termination of this Agreement.

2.5 You hereby acknowledge that the distribution media provided to you under this Agreement, including any program upgrades provided thereto, contains confidential information including the object code constituting the Software and other trade secrets of ETA. You shall not attempt to decompile, disassemble, or in any way modify, reproduce in magnetic or graphic form, or otherwise use the said information or object code in any manner inconsistent with the terms of this Agreement or the ETA's ownership thereof. You shall use your best efforts to prevent disclosure, modification, or improper use of such information by its employees or agents. You

shall take such steps as necessary to inform all persons whom you allow to use the Software, including employees and consultants hired by you on a temporary basis and external users, of these confidentiality requirements.

2.6 The title and ownership of the Software and all applicable rights in patents, copyrights, and trade secrets therein shall remain with ETA. You shall acknowledge ETA as the originator of the Software in any reports, publications, or marketing materials based on the Software. All obligations of confidentiality shall survive the termination of this License.

2.7 ETA warrants that it has the right to license the Software to you. You affirm that the Software has been developed by ETA and tested with due care. 3.5 If you infringe upon any intellectual property rights related to the Licensed Product, you agree to indemnify, defend, and hold harmless ETA against all damages, losses, liabilities, and expenses resulting from or related to such a violation. This obligation shall remain in effect even after the expiration or termination of this Agreement. Additionally, you agree to indemnify ETA against any third-party claims arising from injury, loss, damage, or expenses related to your possession, operation, or use of the Licensed Product, except where ETA's liability is expressly stated in this Agreement.

5.2 You may terminate this EULA at any time by permanently deleting or destroying all copies of the Licensed Materials. This EULA will also terminate immediately, without prior notice from ETA, if you breach any material provision of this agreement, regardless of whether your license is subscription or lease or perpetual. However, any outstanding payment obligations accrued before termination will remain due.

5.3 Upon termination, all rights, licenses, and obligations granted under this EULA will cease, except as explicitly stated otherwise. You must promptly delete or destroy all copies of the Licensed Materials and any related documentation.
